"Use a Fork?" He Asked Surgeon.
"The last time I had a spell of sickness," stated J. Fuller Bloom, "I made the folks send for old Doc Bitters, who lives seven miles away and is a moss-grown bungler who hasn't learned anything worth mentioning of young Doc Prissy, who resides right around the corner and graduated last year with high honors and is really a very bright young man and a highly competent physician. You see, noticing the latter's correct civil engineer whiskers, his profound respect for the dignity of his profession, and his persistent insistence on being addressed as 'Doctor,' with the accent on both syllables, I was so unwise as to ask him, a few days before my attack, if he used a fork with his knife when he performed a surgical operation. So, naturally, being of sound though pessimistic mind, I preferred to suffer in silence during the longer period necessary to get old Doc Bitters here than to call in young Doc Prissy and learn the answer to my inquiry from vulgar demonstration."—Kansas City Star.

RESTORED TO PERFECT HEALTH.

"Prior to using Chamberlain's Tablets some four or five years ago I was a great sufferer from headache, dizziness and despondency. My appetite was poor and I was greatly troubled with constipation. Chamberlain's Tablets relieved me of these distressing symptoms soon after I began taking them, and eventually I was restored to perfect health," writes Mrs. E. Dietzsch, Rome, N. Y. Distinctive Style in Utility Coat

For the woman of average means, a separate coat, to be worn with frocks of varied character, is a necessity of the wardrobe. Such a coat needs to be carefully selected, since it is to do duty as a street coat, for traveling, for driving in the auto, and for such occasions as may demand a sport coat. But great numbers of separate coats were designed this spring that are suitable for all-round service, and have much style to recommend them as well.

Among them, coats of covert cloth in tan and kindred shades and those in black and white checks seem really to fit in everywhere. They are full of style and snap; just the sort of garment that the American woman needs and delights in.

A fine example of the general utility coat is pictured here. It is a black-and-white check, with collar and cuffs in leather color. These accessories are often shown in emerald green and in black with white piping, so that there is a choice in color. The coat, as pictured, is worn over a frock of black tulle. A combination of black and white appears in the Breton sailor hat and is repeated in the low walk-

ing shoes. No one needs to be assured of the smart appearance of such a toilette for the promenade.

But an equally pleasing picture presents itself if one imagines the coat worn for traveling. The hat might be a Panama or small outing shape the shoes have tops of tan-colored cloth, and the dress be a plain suspender model worn with pongee shirt waist. The coat would fit in and complete a perfect outfit for the journey. These coats are all cut on flaring lines, but they vary somewhat in length. Pockets and buttons are featured in their finishing. There is a great variety of styles in collars, and in the covert models buttons, collars and cuffs are usually all of the cloth. In selecting a coat for general wear it is necessary to make sure that the material has been shrunk or is water proofed.

Some Forms of Rheumatism Curable.

Rheumatism is a disease characterized by pains in the joints and in the muscles. The most common forms are: Acute and chronic rheumatism, rheumatic headaches, sciatic rheumatism and lumbago. All of these types can be helped absolutely by applying some good Uniment that penetrates. An application of Sloan's Liniment two or three times a day to the affected part will give instant relief. Sloan's Liniment is good for pain, and especially rheumatic pain, because it penetrates to the seat of the trouble, soothes the afflicted part and draws the pain. "Sloan's Liniment is all medicine." Get a 25c bottle now. Keep it handy in case of emergency.—Adv. d&w

Making a Changeless Ink.

In shops where it is damp or chemical fumes are present it is usually difficult to cause labels to stick to bottles or cans. An ink for use on such containers is made as follows: Shellac, 20 grams; dissolve it in a hot solution of borax containing 30 grams of borax to 400 cubic centimeters of water; filter while hot and add a solution made of aniline black 8 grams, tannin 0.3 gram, picric acid 0.1 gram and ammonia 15 grams, in water 10-grams. It will be found that this ink works nicely and resists the usual chemical and corrosive fumes.

Dizziness, vertigo, (blind staggers) yellow complexion, flatulence are symptoms of a torpid liver. No one can feel well while the liver is inactive. Herbine is a powerful liver stimulant. A dose or two will cause all bilious symptoms to disappear. Try it. Price 50c. Sold by Owl Drug Store.—Adv. d&w

The ABC and XYZ of ADVERTISING

A SERIES OF TEN TALKS ON ADVERTISING

written by Seymour Eaton of Philadelphia

No. 5

Never spring a big newspaper advertisement upon the public unexpectedly.

Make it an invariable rule to lead up by two or three nicely graded steps to the important announcement to be made. People take a certain pleasure out of anticipation. They enjoy their dinner all the more if they have been anxiously waiting to hear the bell. But if you open up your morning newspaper and find blazed forth in big headlines the advertisement of something startlingly new you are stunned rather than interested. If, however, for two or three days you have been looking for this announcement and each day getting a little more curious about it, you get yourself keyed up in anticipation, and then if the announcement is even better than you had imagined you surrender in a body.

Don't pay the United States government two cents for carrying a letter or a circular worth less than two cents.

The average advertiser will shave off 15 cents a thousand on envelopes and a quarter of a cent a pound on paper and beat down the printer in price so that he is obliged to use a 30-cent ink and by various other economies get his material ready for \$6 a thousand. He will then pay the government \$20 for carrying his stingy, badly-printed, cheap-looking \$6 worth of stuff and pat himself on the back for being economical.

Don't waste gray matter on your competitor. No matter how entertainingly he lies, you go right on telling the plain, blunt kind of truth that mother-used-to-make.

Truth can be made far more entertaining than falsehood. Don't be afraid to call a spade a spade.

If the goods are shoddy advertise them as shoddy, give good shoddy measure, and charge shoddy prices. There are tens of thousands of people who prefer shoddy; prefer to eat it, to wear it, to be entertained by it.

If you have news to print about your store—some call it advertising—don't order twenty-three styles of type with whirling borders and a crazy, badly-engraved picture. The mummer on New Year's Day or the clown at Barnum's may look funny, but he couldn't make good on the road selling gold watches. The advertiser has an idea that the more fool things he drags into his copy the more entertaining it is. The clown has the very same idea.

The great thing in all advertising is not quantity of circulation, but quality of your copy printed in a newspaper the readers of which are able to buy your goods.
